We are going to visit Mainz, a charming, historic town in south-west Germany near Frankfurt and located on the banks of the river Rhine.

The 'Old Town' is where we plan to spend most of our time, a place which is full of cafes and charming beer-gardens, visiting of which, will be very much part of our program !

Mainz and its surroundings are well known for being Germany's centre of wine growing. This city had been a wine growing region since Roman times, with a wine market, a great fair for all. Thus wine tasting will be very much an opportunity for us, while staying in Mainz, not just the well-known, famous beer varieties of the region.

Mainz is also the home place of Johannes Gutenberg, the inventor of no less, than book printing. We will see the original print as well as colored woodcarvings and prints all the way to future electronic books.

The pictures below are only a small selection, to illustrate the beauty of the place. Detailed time-table will follow, and will be provided for all, who chooses to join us in the 'Spousal and Family Members' part of our meeting, which will be over two days: 9th September (Tuesday) and 10th September (Wednesday). Entrance tickets and tour guides will be taken care of, as usual.

See you all, who wish to be part of our nice tradition, while our other halves are busy sitting in the meeting.

Looking forward to seeing you in Mainz, Germany in September 2014!
