- 11.15-12.20 ULD CARE CODE OF CONDUCT**
The Code of Conduct is designed and published. Now is the time to get it into the mainstream of air cargo. The only way is upwards and outwards. How can the ULD CARE membership take this initiative forwards.
- 12:20-12:30 SPEAKERS CORNER** presented by Innovation Thru Energy Co. Ltd.
- 12.30-14.00 NETWORKING LUNCH,** Seafood Restaurant

- 14.00-15.15 ULD OPERATIONS AND MANAGEMENT IATA BRIEF**
- Zhi Yong Liao, Manager Business Process and Standards, IATA APCS Cargo
Zhi Yong will take us through the considerable ULD related activities happening in IATA.
- STRAPS AND STRAPPING**
- Blair Dubois, Chief Engineer for Special Cargo and Weight and Balance Engineering, ATLAS AIR
Since NAC 102 the use of cargo straps in primary restraint has been under considerable review by the aviation safety authorities. While its' one thing to design a strapping arrangement for a particular item of cargo it's quite another to ensure that the straps are properly installed. The newly developed ULD CARE "Strap App" can prove to be a game changer.
- INTRODUCING THE FAA'S FLIGHT STANDARDS INFORMATION MANAGEMENT SYSTEM (FSIMS).**
- Bob Rogers, VP, ULD CARE
Earlier this year the FAA provided the audience at an IATA ULD Safety Campaign Workshop with an overview of the FAA FSIMS. This is the system by which the FAA manages its ramp safety audits of cargo and ULD operations. In this introduction to the FSIMS we will illustrate what it is that the FAA are looking for and show what it takes to remain in compliance.
- DOING TCC RIGHT**
Pharmaceuticals remains one of the brightest spots in air cargo, with multiple airlines promoting their temperature controlled offerings. What will it take for the industry to understand how to operate these expensive and complex TCC's effectively?
- 15.15-15.45 NETWORKING BREAK AND TABLE TOP EXHIBITS, Ballroom Foyer**

THURSDAY 11TH OCTOBER

9.00-9.15 WELCOME BACK

- Urs Wiesendanger, President, ULD CARE

9.15-10.15 ULD DESIGN AND INNOVATION – ULD OF THE FUTURE

Its approaching 50 years since the first 747 flight, much has changed, but the industry remains far far away from the ultimate in ULD design and operation. In this session, we seek the opinions of a range of industry experts as to what the next generation of ULD should be bringing to life.

MODERATOR:

- Ulf Hartman, Technical Director, ZODIAC
AIRCARGO EQUIPMENT BV

10.15-10.45 ULD CARE ACTION PLAN 2018/19

ULD & ULD CARE face both opportunity and challenge in the coming 12 months. New technologies bring new opportunities, while the operating environment continues to challenge the delivery of safe, damage free ULD operations and handling. In this session we will outline our ambitions for the next 12 months.

10.45-11.15 NETWORKING BREAK & TABLE TOP EXHIBITS, Ballroom Foyer

11.15-12.15 READY FOR THE FUTURE, NEW SOLUTIONS FOR OLD PROBLEMS
