THE FUTURE IS NO W Sustainability · Efficiency · Digitalisation

ATHENS 2023 CONFERENCE

Sustainability mindset

How to teach children on sustainability

- Pick your own fruit and vegetables
- Visit a farm
- Create DIY recycling bins
- Upcycle
- Plant a garden
- Make a worm farm
- Inspect small creatures
- explore nature

Estimates of the United States' swag or promotional products industry vary from \$17 billion USD to more than \$25 billion USD per year, with a global estimate of \$64 billion USD. And while recent efforts and trends by swag suppliers and purchasers involve sustainable options (lend a lanyard), ING estimates 40% of corporate gifts end up in landfills.

"As awful as this Covid pandemic is, in just a few decades, the same description will fit another global crisis: climate change. , climate change could be worse" *Bill Gates*

The sustain-a-uld-bility journey

• 1987 Brundtland report

The basics

- Safety & Regulations
- Corporate & Personal

٠

- Environment
- Sustainable Aviation Fuel (SAF)
- Light(er) weight equipment
- Efficiency gains
- Infrastructure
- Damages
- tie down paradise
- People

Perspective

- Companies work independent
- Responsibilities
- Repair facilities are (no) dumpsites
- Value
- Innovations what can we do

Assume 400.000 air cargo pallets (mostly PMC) in rotation per year

Net replacement 1 x per 2 year (low estimate)

Straps average 6 x pallet for 100.000 ulds per year

200.000 nets per year disposed = 200.000 x 11 kg = 2.2 mln KG material

600.000 straps per year disposed = 600.000 x 1 kg = 6 ton KG

Conservative estimate 3 Million KG of nets and straps per year disposed

Note: weight of metal is deducted

Challenges

- Material hard to recycle
- Material is very strong
- Material burn rate high
- Hooks and double studs
- Cost price vs repair cost
- Shelf-life limitations
- Importance/consumable

Sustainability toolbox

- YOU
- Manufacturing
 Materials

 - Circular •
 - Built to last
- Procurement ٠
 - Requirement
 - Maintenance
 - Involve
- Usage
 - code of conduct
 - Part of process Mindset
- End of life ٠
 - Waste management
 - Recycling instruction Repurpose

With the right tools, the right result

Key take-aways

Start with yourself: believe in it

Look around you

Think long term > start small

Cooperate

Sustainability is more than recycling

Responsibility

Innovate

THE FUTURE IS NOW Sustainability - Efficiency - Digitalisation

Nobody is perfect

Jos Jacobsen
