

Value Proposition

The ULD CARE Story

- Established as an IATA special interest group in 1970's to manage the transfers of ULD between member airlines in the course of cargo interlining.
- Evolved to include membership of related parties such as ULD OEM's and service providers
- Spun off by mutual agreement from IATA in 2010 becoming Canadian not-for-profit entity dedicated to improving the global operating environment for ULD.

ULD CARE MEMBERS

The **biggest names** in Air Cargo are ULD CARE members. **Join our community.**
ULD CARE boasts **70+ members**, **46+ airline members** and **24+ non-airline members**

Repair / Other Providers

Role and Importance of ULD CARE

ULDs Need Attention

- Widespread lack of understanding of the critical contribution ULD play in the global air cargo eco system
- ULDs often taken for granted until problems arise
- Generally low quality infrastructure and handling practices

Strategic Role of ULD CARE

- Industry association providing long-term solutions for key ULD issues
- Adds industry value through innovation and education
- Platform for innovation and excellence through stakeholder collaboration
- Forum for industry wide sharing of expertise and experience

ULD CARE Clearing House Function

- Independent clearing house for ULD transactions occurring outside owner's direct control.
- Addresses ULD movement between different airlines (interlining) and through cargo terminals to third party users.
- Provide relevant visibility to all stakeholders

ULD CARE Deliverables

Safety and Efficiency: Dedicated to ensuring the highest standards of safety and efficiency in the transportation of air cargo on ULDs

Collaboration: Brings together airlines, manufacturers, and other air cargo stakeholders to promote safe and efficient ULD operations

Innovation: Committed to developing and implementing modern digital processes to benefit all stakeholders in the air cargo environment

Sustainability: Focuses on creating sustainable ULD operations and handling practices

Training and Education: Provides virtual tools and training programs to transmit essential knowledge to all players in the industry

Unique ULD CARE Value Propositions

- #1** Provide a neutral, independent clearing house platform enabling all stakeholders in the ULD eco-system to have visibility of inter party ULD transfers.
- #2** An inclusive forum for all members of the ULD world to collectively address common challenges and opportunities
- Sustainability
 - Education and knowledge
 - Digitalisation
 - Safety

Why be a part of the ULD CARE community?

Industry Expertise: Access to industry newsletters and annual conference where similar air cargo companies have experienced the challenges you are facing and how they overcame them.

Digitalization: Access to ULDigital innovation including IULDUG system expanded to include the larger air cargo community and becoming a data clearinghouse providing ULD updates to make the industry more efficient.

Sustainability: Opportunity for stakeholders to collaborate through working groups to deliver an industry sustainability strategy that is shared by ULD CARE through various channels including newsletters and the annual conference.

ULD “Know How”: Leverage in house know-how through access to the wide range of ULD information built up through years of membership experience.
