

How to apply for the ULD Climate Impact Label

Applying for the ULD Climate Impact Label is simple and open to all ULD CARE member OEMs. The process is product-specific and takes about 4 weeks from submission to certification.

Step 1 – Prepare your submission

Fill in the following documents:

- ULD Climate Impact Label Calculation Sheet
- Company Climate Impact Survey

Provide supporting evidence where required according the Rulebook:

- Choose between: a photo of the TSO plate, an approved drawing of the TSO plate or a photo of the CMM section that shows the weight information.
- Signed statement by the OEM whether the OEM commits to providing replacement parts necessary for ULD repair over the expected lifetime of the container.
- Signed statement by the OEM whether the OEM provides a defined recycling or end-of-life program, including a link to a related section of their website or additional information on the program.

Step 2 – Submit to ULD CARE

- Fill in the form [here](#)
- Attach your completed documents.
 - 1- ULD Climate Impact Label Calculation Sheet
 - 2- Company Climate Impact Survey
 - 3- Supporting evidence where required according the Rulebook
